The naval bill brought out a hot contest on the price of armor plate and the establishment of a government armor factory. The Senate committee had recommended a maximum price of \$400 per ton for armor. Mr. Chanlier endeavored to have the price fixed at \$300. The bill was laid aside at 4:30 p. m. fer an executive session.

THE ARMOR-PLATE ITEM. During the discussion of the naval bill, Mr. Hale, in charge of the measure, explained that thorough investigation led to the belief that armor plate should not cost above \$400 per ton. Mr. Chandler moved an amendment to the foregoing fixing the price at \$300 per ton. The renator paid a high tribute to Secretary Herbert for his able and courageous report which concluded that the cost of armor should not be above \$400 per ton, or \$180 per ton less than the secretary had paid for armor during the last year. Mr. Chandler commented on the offer of the Illinois Steel Company to furnish armor at from \$2.0 to \$250 per ton, and on the fact that the Bethlehem Company was furnishing the Russian government armor at \$240. When Mr. Quay remarked that the Illinois Steel Company had made no direct proposition, Mr. Chandler said he took it that senator meant to imply that the Illinois Steel Company was merely seeking to annoy and embarrass the Carnegie

and Bethiehem companies. Mr. Gorman traced the development of the new navy until we had now reached a point where our ships equaled any affoat and our shipyards rivaled those of the Clyde With these results realized it was not a time to reverse our policy and enter ernment armor factory, run by government officers. It was a monstrous proposition, run in under the guise of a reform and it would make armor cost four times what had been paid private concerns. When Mr. Jones of Arkansas spoke of the 'monstrous price' paid by the government for armor, and of Secretary Herbert's rehad never put much faith in "death-bed Greek guarantee of safety.

Little Chance of the Anti-Prize-Fight Bill Becoming a Law.

WASHINGTON, March 1 .- The House galleries were thronged with visitors all day, but the crowds witnessed nothing beyoud the dullest of routine matters until the last half nour of the session, when the bill to prohibit the transmission of detailed accounts of prize fights by mail or telegraph was brought up. This led to a very lively skirmish, in wich prize fighting was denounced on all sides, and the advocates of the bill insisted that the "sickening details" should be suppressed in the interest of good morals. But the bill met with most strenuous opposition on the ground that it would tend to establish a censorship of the press. At the end of the debate, which was participated in by Messrs. Aldrich (Rep., Ill.), Grosvenor (Rep., Ohio), Morse (Rep., Mass.) in favor of the bill, and Messrs. Dockery (Dem., Mo.) and Cummings (Dem., opposition, the adversaries measure outvoted the friends on several filibustering an agreement for recess until 10 o'clock to-morrow put an end unfinished business whenever the call of committees is reached, but as conference reports have the right of way, it is doubtful whether that order of business will again be reached this session. Mr. Morse advocated the passage of the bill as a "protection to the youth of the He said he hoped the result of the fight would be that "these two brutes" would kill each other. General Grosvenor expressed the opinion that the necessities of morality and public

Count Goluchowsky expressed great regret at the attitude of Lord Salisbury, and the fear that further massacres would result. It appears that Lord Salisbury contended that it was not an evenhanded policy to use the fleets of the powers against the Cretans and only diplomatic remonstrance against the Sultan. As far back as September Lord Salisbury virtually advocated autonomy for Crete, and declared that he could only join a coersive measure against Greece in case she should make a hostile attack upon the integrity of the Turkish empire.

IN THE NATIONAL BODY

LOCAL BOARD OF TRADE DECIDES NOT TO WITHDRAW FROM IT.

Monetary Convention Results Prompts a Reconsideration-City Wants a Hand in the State Fair.

The board of governors of the Indianapolis Board of Trade held its regular monthly meeting last night with a full attendance. The most important action taken by the body was one looking towards readmission into the National Board of Trade, The national board is averse to accepting the resignation of the local organization, which was tendered some time ago, and appointed a committee consisting of E. O. Stannard, of St. Louis, and J. A. Gano, of lincinnati, to see what could be done in

Communications from both these gentlemen were read last night, asking the board to reconsider its action. After some discussion, in which the chief opposition was by General Foster, a motion was carried directing President Adams to recall the withdrawal of the board.

The chief reason for the board's withdrawal from the national organization was that it was thought the national board had little in common with Western boards of seemed to be a change in the cordition, and | vised him to proceed by legal process, it was agreed to try a membership for at least another year, with the hope that Indianapolis will secure more recognition. A resolution was presented by C. S. Denny and adopted by the board, requesting the State Board of Agriculture to give the city of Indianapolis representation in its

body. The plan suggested is that the mayor of the city shall nominate such a representative, the Board of Agriculture to formally elect him. A copy of the resolution was ordered forwarded to the secretary of the Board of Agriculture. The committee on communications and resolutions reported the receipt of a communication from the general manager of the American Exposition Company, of New York, asking that this State be represented at the national exposition of the United States boards of trade at Madisonsquare Garden, in September, 1897. The

communication was referred to the State Board of Commerce. The special committee appointed to operate with the State Board of Agriculture reported in favor of abandoning the idea of State exhibit at the Brussels International Exposition. The report was con-

curred in. The membership committee reported favorably on the name of Robert Keller, to whom is transferred the stock of Henry Schwinge, and he was declared elected. The committee on finance for the monetary convention made its formal report and was discharged by President Adams, with the remark that "a finance committee that can pay 41 per cent. dividends is a committee for your whiskers." A vote of approval was tendered the committee for its good work, and on motion of Chairman McGettigan the people of Indianapolis were given a vote of thanks for their willing response to the committee's request

Resolutions to Cut Those of the Sub-

urb's Officials. At the regular meeting of the West Indianapolis Council, last night, Councilman McCain proposed to reduce the mayor's salary to \$75 a year, and each councilman's officers are to remain the same as at present. The object of this ordinance is to reduce the expenses of the suburb, and Mr. McCain said that he believed in beginning by reducing the salary of the members of the Council first. The Democratic members, in order to delay the measure and probably kill it, proposed to refer it to the committee on fees and salaries, which has a Democratic majority. The Republican members, however, were unanimously in favor of passing the resolution without referring it to any committee, but were overruled by numbers, and the resolution was referred to the committee. The immediate cause of this resolution was the report of the suburb's treasurer, who reported that

S. PENNSYLVANIA ST.

Elwood Bloom, residing at the corner of School and Spencer streets, in Brightwood, was found dead in bed about noon yesterday. The deceased was a clerk in the grocery owned by his brother, Samuel Bloom, on Station street, and was well known in the suburb. His sudden demise was quite a surprise. He lived with his mother, who is visiting relatives out of the suburb, and he and a younger brother slept in the house and took their meals out during her absence. Last Sunday Bloom was apparently in perfect health and took a spin on his bicycle, of which sport he was very fond, He was also somewhat of an athlete, and in the afternoon some friends called on him and they put on boxing gloves and had a few friendly sparing bouts, and after they had tired of the exercise Mr. Bloom appeared as fresh as ever and none the worsa for the exertion. He and his brother retired as usual Sunday night, and vesterday morning the younger brother arose to go to work, and Edward, who was awake, told him that he did not feel very well, and would not get up and go to work until At noon the younger brother returned and went to the bedroom to arouse Edward, and made the discoverey that his brother was dead. The cause of his death is unknown, and the coroner, who was sumoned, being also in doubt as to the cause of his death, has ordered an autopsy to be held this morning.
